SKILLS

Front End	HTML5, CSS3, JavaScript, React.js
Databases	MySQL
Languages	C++, Python
Computer Fundamentals	Operating Systems, DataBase Management Systems, Computer Networks

PROJECTS

1. Tour and Travel
- Developed and deployed a dynamic Tour and Travel website leveraging React.js, highlighting proficiency in front-end development.
- Crafted an engaging and user-friendly interface that provides seamless navigation and showcases various destinations, packages, and travel experiences.
- Implemented advanced features such as interactive maps, real-time booking functionalities, and personalized itinerary planning, enhancing user experience and driving customer engagement.

2. Password Generator
- Designed and implemented a Password Generator using HTML, CSS, and JavaScript, showcasing front-end development expertise.
- The project features a modern and responsive UI, allowing users to customize secure passwords with options for length, uppercase letters, numbers, and special characters.

3. Weather App
- Designed and implemented a weather app using HTML, CSS, and JavaScript, showcasing front-end development expertise.
- The application offers a user-friendly interface, providing real-time weather updates based on location input, with detailed forecasts including temperature, humidity, wind speed, and precipitation probability.
